Continuous Improvement

PROFILE

Passionate, dedicated and empathetic Graduate Nurse, committed to providing patient focused, comprehensive and effective evidence based nursing care. Sound clinical skills demonstrated during hands-on clinical placements. Showed a collaborative approach, consulting with others to draw on the diverse knowledge and skills of wider health professional team. Committed to continuous professional development, has shown ability to quickly learn new techniques and apply new knowledge. Supports patients and families, employing compassion to build rapport. Meticulous attention to detail ensures accurate documentation.

CLINICAL EXPERIENCE

STUDENT NURSE

2012 - 2014

ABC Hospital | XYZ Private Hospital

Undertook clinical placements at hospitals, as requirement of university studies. Gained experience within Surgical Ward, Paediatric Ward, Cardiothoracic Ward, Psychiatric Ward and Alcohol Rehabilitation Ward.

- ✓ **Helped team and took on additional tasks;** while staff looking after critical patient assisted with additional tasks within scope of practice in order to ensure all patients received necessary care.
- ✓ **Respected confidentiality;** respected privacy of patients and maintained confidentiality always. Responded resolutely to enquiry from another patient, explaining that information could not be provided.
- ✓ **Contributed to safe systems of work;** ensured compliance with workplace health and safety requirements. Reported all matters that may affect safety and correctly used all equipment.
- ✓ **Managed workload to ensure all necessary tasks achieved;** used a shift planner and wrote down all necessary task for that shift and times. Demonstrated flexibility in managing competing demands.
- ✓ **Demonstrated commitment to learning;** asked questions when unsure and made the most of valuable learning opportunities to advance skills and understating.

CLINICAL EXPERIENCE CONTINUED

STUDENT NURSE

2012 - 2014

- ✓ **Delivered patient centred care;** maintained regular observation and monitoring processes, administered medications and updated patient history and progress notes.
- ✓ **Ensured that all pertinent information regarding patient care communicated;** promptly informed relevant members of the team and participated in ward handover.
- ✓ **Advocated patient needs; continually recognised needs of patients,** providing support and collaborating on health care plans. Kept patient needs at the forefront of each situation.

TESTIMONIAL

“It has been a pleasure to have Abby as part of our team. She has a strong patient focus, and had shown a keen interest in enhancing her knowledge and gaining broader experience. Her skills are excellent”

A Nurse; Supervising Nurse
